 The Lifestyle Library

"It's such a positively charged show, full of energy from the huge selection of creative brands and people who are interested in making natural healthier choices. It's a good place to make connections and new discoveries and although we came away pretty exhausted, we came away feeling happy - it's a good show!"

Angela Manton
Earth Conscious Limited

"We were amazed by the support, responsiveness, and the overall efficiency of your staff. Not only were we able to sell a lot of products and make profit (!!) but we also got to tap into a new customer base compile a huge emailing list (which is invaluable from a marketing standpoint) and get realtime feedback on our products. The show was a great opportunity for us to meet our customers and see how we can fine-tune our marketing communication as well. We think the mid/long-term impact will be even greater and converting the invaluable information we gained from the show to sales will be an exciting challenge for us"
